

VineyardFresh®

WINE PRESERVER

“Fresh Wine Everytime”™

Heavier Than Air

VineyardFresh®
WINE PRESERVER

Lighter Than Wine

Wine Preserver, 6 x 0.56 Oz
Product # KH630 • Size 0.56 Oz

VineyardFresh Wine Preserver ensures Fresh Wine everytime by stopping the process of oxidation with 100% Argon gas. Because this gas is only slightly heavier than air, VineyardFresh will create a protective barrier between the air and the wine. This also eliminates waste at the bar with zero waste which helps to increase margins while ensuring repeat business with a high level of customer satisfaction, offering a quality glass every time.

Wine Preserver, 12 X 0.32 Oz
Product # KH628 • Size 0.32 Oz

Vineyard Fresh can also allow you to expand the wines by the glass offerings, add wines of higher quality and price, or to market and promote food pairings with specific glass pours. Use this as a tableside service to encourage responsible drinking and a wine which is preserved. In turn this will in turn promote your wine preservation program, allowing you to then market the retail size as an upsell for home use.

Winebag 4X19" Tamperproof
Product # KH636 • Size 19", 40 ct

This sleek looking wine bag uses a tamperproof seal approved by all states and can be used to increase revenue by selling an additional bottle in recorking states. This can be offered as a tableside service to help encourage responsible drinking and the legal take home of opened bottles.

Wine Preserver, 12 X 0.064 Oz
Product # KH632 • Size 0.064 Oz

Vineyard Fresh can turn wine preservation in to a profit center by offering this convenient travel size version to your customers in a retail setting.
